

Announcement regarding Prevention taken at TCS of Coronavirus (COVID-19) Infectious Disease

TCS prepares to prevent the spread of the latest coronavirus infectious disease as follows.

We would appreciate your cooperation and understanding about this.

1. If you have mild cold-like symptoms (tiredness, coughing, runny nose, etc.) or have a fever of over 37.5 °C, please stay home and cancel your appointment. The cancellation fee is not charged even if you cancel your appointment on the day, due to mild cold-like symptoms or a fever of over 37.5 °C.
2. The counselors and staffs at TCS wear face masks for prevention. We also take preventive activities such as gargling and hands washing, the use of hand sanitizer, and ventilation of the rooms at TCS.
3. We offer online counseling with Skype or Zoom if you feel anxiety about going out to visit TCS for your appointment. Please don't hesitate to ask us about online counseling sessions.

Thank you very much for your understanding.
